

Web Appendix With Data and Programs for
“An Alternative Theory of the Plant Size Distribution with an Application to
Trade”

by

Thomas J. Holmes (University of Minnesota, Federal Reserve Bank of
Minneapolis, and NBER)

and

John J. Stevens (Board of Governors of Federal Reserve System)

April 2010

Note: The statistics reported in this paper derived from Census micro data were screened to ensure that they do not disclose confidential information.

Supplementary Tables (These tables contain the results for all of the 172 Industries from the 1997 Census of Manufactures for which we have estimated the model. These are the called “Diffuse Demand” industries in the paper.)

- [Stage 1 estimates. \(Sorted by NAICS\)](#)
- [Stage 1 estimates. \(Sorted by estimated a\(100\)\)](#)
- [Stage 2 estimates \(Sorted by NAICS\)](#)

[Link to Data Sets and Programs](#) (This link contains all the public data and programs used to create Tables 7-10, 12-15 of the paper.)
